

# Content Management

## OutiM Server E-mail Management for Exchange and WorkSite

The fastest, easiest, and most powerful way to automatically move, copy, or link Exchange content to the right location in your WorkSite environment, whether or not you are matter-centric.

### OutiM Server's Key Features:

- Imports e-mail content and structures continuously from Exchange into WorkSite, preserving organizational structures and native MIME format
- Selectively processes Exchange sources at any level, from one or more mailboxes, specific folders or PST files, to individual messages
- Routes content to correct WorkSite folders or WorkSpaces automatically
- Copies/moves any kind of Exchange content: messages, notes, contacts, calendar items, or custom types
- Filters messages based on age, date, address, subject, attachment, flags, categories, etc.
- Handles legacy email for archival purposes

- Can delete e-mail from Exchange after import
- Detects and deletes duplicate e-mail automatically
- Fast server-side engine architecture, without the need for additional hardware and software

### The Benefits to You:

- Relieves stress on Exchange Servers
- Enhances client-side e-mail processing, with less work for the users to file e-mail
- Allows access to single-instance content from Outlook or WorkSite
- Protects the firm by enforcing records management, litigation hold, compliance and risk management policies
- Enables data privacy compliance through pattern-matching and use of wildcards

This server-side product ensures that any or all Exchange data is imported into WorkSite directly, automatically, and continuously.

DocAuto provides a comprehensive suite of software solutions for Autonomy iManage WorkSite that reduce risk, improve user experience, and optimize performance.

Trusted by hundreds of firms worldwide, DocAuto has been providing industry-leading software, domain expertise and dedicated customer service since 1997.

As the leading provider of enhancements for WorkSite, DocAuto makes matter-centricity easy, flexible, and secure. Our development direction is driven by customer needs, special requests from Autonomy iManage, and from strategic ideas we develop internally for the WorkSite community.

Learn how you can rely on DocAuto to help you.
