- Reduce costs and risks
- Streamline document review process
- Increase collaboration
- Helps with eDiscovery and document management
- Enterprise-wide solution
- Vista compliant

compareDocs 3: see the difference...

"compareDocs is a viable alternative to other existing options. It would be my first choice in recommending an electronic redlining program."

TechnoLawyer: John Heckman, legal technology consultant

"I am thrilled to find a simple and reliable document comparison tool in pdfDocs' compareDocs. I appreciate uncomplicated software that does a specific task, and does it very well. compareDocs focuses solely on comparing documents and, for that, the software has no comparison."

Legal Assistant Today: Brett Burney, legal technology consultant

The compareDocs approach to document comparison and workflow is unique.

Its easy to use interface lets you compare anything to anything, integrating seamlessly into the applications you use every day— MS Word, Outlook and Adobe Reader. No more proprietary viewing technology; no more reformatting documents; no more time wasted!

Instead, its leading-edge technology identifies changes in documents and outputs the changes directly to Word or PDF so that you can continue to work on the document. The result is a seamless, integrated workflow that delivers unprecedented levels of accuracy and efficiency.

A DOCUMENT COMPARISON SOLUTION

As business embraces the notion of collaboration, the need for a robust document comparison and control solution becomes even more critical.

Manually comparing and contrasting documents is a time-consuming process that is prone to error. pdfDocs compareDocs gives business a solution that is fast, accurate and efficient.

COMPARING APPLES WITH ORANGES

compareDocs goes beyond the simple Word-to-Word or PDF-to-PDF comparison solution.

Compare two MS Word documents and output the Comparison Report as a working MS Word document. You can accept/reject changes in the document using MS Word's track changes functionality.

With compareDocs you can compare apples to oranges, that is Word to Word, PDF to PDF, Word to PDF, anything to anything.

With OCR Server installed, you can compare PDF to PDF and output the Comparison Report as a MS Word document.

DOCUMENT MANAGEMENT INTEGRATION

pdfDocs compareDocs integrates with Autonomy iManage, NetDocuments, Open Text eDOCS DM and DOCS Open as well as Worldox document management systems.

A single right-click on a document allows users to compare documents stored inside the DMS environment.

COMPLIANCE

pdfDocs compareDocs enables business to meet industry and corporate compliance regulations by providing a reliable tool for tracking, discovering and reporting changes to business-critical documents.

www.docscorp.com/comparedocs

COMPARE DOCUMENTS

Compare Word to Word
 Compare PDF to PDF
 Compare Word to PDF
 Compare PDF to any other text-based document format
 Swap original/modified document positions
