OIA CELEBRATES 20 YEARS IN I.T.

1991 saw the end of the Gulf War, the first Web Browser "WorldWideWeb" created by Tim Berners-Lee, Bob Hawke was in power with Keating nipping at his heels in the midst of the recession we had to have, unleaded fuel was 74c a litre, and a bottle of milk would set you back 90c—1991 was also the year Office Information was founded. A team of professionals who saw the growing need for quality information and technology in an office environment convened over a game of golf and Office Information was born.

Focusing on IT Services from Consulting to Hardware Support, Office Information gradually expanded to provide Strategic Planning, Document Management, Systems Integration & Development; seeping into New Zealand, Singapore, South East Asia and China, Office Information became Office Information Australia—the leading supplier of office technology, systems integration and Document Management Systems in the Asia Pacific Region.

After 20 years, we've seen the conception and downfall of many IT companies, the death of Dial Up and the birth of Wi-Fi, however we are still expanding, focusing on providing quality service with certified staff, we take your IT requirements seriously and firmly believe in planning for the future. Thank you to our clients who have stuck with us and hello and welcome to our newer clients, here's to another 20 years!

INTRODUCING BRAD EVANS

Brad comes to us from a varied IT background, incorporating Outsourcing, Federal Government and the largest member organisation in WA and has taken over from Grant Stephens as our Operations Manager. Brad has a vast wealth of previous management experience in information & communication technology. He is particularly focused on improving customer service delivery and client satisfaction within those areas. Brad is now 6 months into his new role and has begun to build solid relationships with our OIA family and looks forward to working with our customers to make their support a more seamless experience and deliver on their business IT support needs.

OIA & THE WESTERN AUSTRALIAN MINING EXPO 2011

Representatives from Office Information Australia will be attending this year's WAMEX being held at the Claremont Showgrounds next week from the 9th to the 11th of November. Doors open at 10am each day and entry is free. We'll be attending alongside the likes of Schneider, IBM and Rio Tinto and we'll be running an expo-exclusive competition to win an iPad2—just swing by our booth, say hello and drop off your business card to go in the running to win.

WAMEX are running a competition of their own over the three days, visit the expo with a VIP pass and you could win \$10,000. To receive a VIP pass, click [here](#) to email us and we'll have one sent out ASAP. We hope to see you there!
