

# Disaster Recovery + Offsite Backup

## Overview

Natural and man-made disasters present real challenges in maintaining a 'business as usual' standing in the modern world.

We rarely get a heads up that a disaster is about to strike. Even with prior warning, things can go wrong with every incident being unique and unfolding in unexpected ways.

OIA data backup and disaster recovery solutions will work together to ensure uptime, reduce data loss and maximising productivity in the midst of an attack, natural disaster, or other compromising situation. In short, it will keep your business running when trouble strikes!

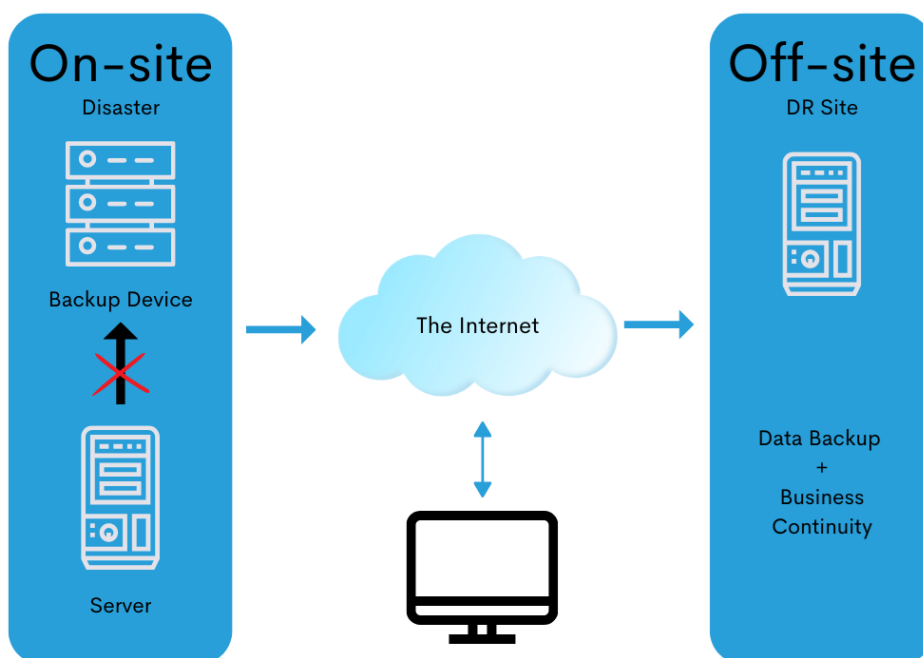

OIA has the expertise and experience to provide you with comprehensive Disaster Recovery and Offsite Backup solutions that best meets the unique requirements of your business.

## Why does your company need offsite backup and disaster recovery?

- > Protection against the effects of cyber attacks
- > Lessens impacts of natural disasters
- > Keeps client data safe
- > People make mistakes
- > Systems fail

OIA's offsite Disaster Recovery Solutions are hosted within Australia incorporating the latest redundancy technologies. They provide hosting for virtual server platforms and offsite backup storage, allowing us to maintain the IT environment in a disaster recovery scenario.

OIA use best-of-breed technologies to deliver the most cost effective, reliable solutions. OIA’s Disaster and Recovery Solutions consist of:

- > Automated backup verification and alerting
- > Near instant virtual machine recovery
- > Cost effective, offsite, long-term retention
- > Quarterly or annual disaster recovery tests, where your virtual machines are “restored” to the cloud-based service environment to ensure they are functional

## Why Partner With OIA?

- > **Strong Reputation**  
OIA has been implementing and managing backup solutions for customers for over 20 years and is constantly evolving these solutions in-line with current technology and industry trends.
- > **Scalable**  
OIA will ensure any solution meets your needs today but just as important, is capable of scaling as your business grows.
- > **Compatibility**  
There is no silver bullet, every business has different needs now and into the future. OIA will determine the best solution based on your specific requirements.

## What else can OIA do?
