iManage Work Desktop for Windows compatibility with Microsoft applications

The Work Desktop for Windows compatibility with Microsoft section below lists the versions of Microsoft Windows, Microsoft .NET Framework, and Microsoft Office compatible with the 10.x versions of iManage Work Desktop for Windows.

In addition, please refer to the following section for information about Work Desktop for Windows compatibility with Microsoft updates.

iManage Work Desktop for Windows support for Microsoft Windows and Office updates

We support the latest Microsoft updates to Windows 10, Office 2019, and Office 365 with Work Desktop for Windows. In addition, we support any future, consolidated updates to Windows 10, Office 2019, and Office 365. This includes, for example, the Monthly Enterprise Channel and Semi-Annual Enterprise Channel releases of Office 365, and the 20H2 and 21H1 updates of Windows 10.

For each new version of Work Desktop for Windows, we validate and certify compatibility with the Office 365 Current Channel and the latest version available from Windows Updates. We also recommend that you validate Work Desktop for Windows with any new roll-up of Windows 10, Office 2019, and Office 365 you decide to implement with your standard desktop configuration before deploying to your entire organization.

For more information about the Office 365 Current Channel, Monthly Enterprise Channel, and Semi-Annual Enterprise Channel, refer to the following article published by Microsoft: [Overview of update channels for Microsoft 365 Apps](#).

Work Desktop for Windows compatibility with Microsoft

	7 64-bit	10.0 - 10.8 ¹
Microsoft .NET Framework	4.6.2 and later	10.5 - 10.8
	4.5.2	10.0 - 10.4
Microsoft Office	Office 2021 through 365 64-bit/32-bit	10.7 - 10.8
	Office 2019 through Office 365 64-bit/32-bit	10.2 - 10.8 ³
	Office 2019 64-bit/32-bit	10.2 - 10.8 ³
	Office 2016 through Office 365 64-bit/32-bit	10.0 - 10.8 ²
	Office 2016 64-bit/32-bit	10.0 - 10.8 ²
	Office 2013 64-bit/32-bit	10.0 - 10.8 ²
	Office 2013 through Office 365 64-bit/32-bit	10.0 - 10.8 ²
	Office 2013 32-bit	10.0 - 10.8 ²

Microsoft compatibility notes:

As of January 14, 2020, Microsoft has officially ended support for Windows 7. While iManage Work 10 continues to function with Windows 7, it is not recommended, and we encourage you to move to the Windows 10 platform for continued software and security updates.

iManage Work Server, Work Desktop for Windows, and Work Web Server 10.1.2 are on-premises only releases.

Compatibility with Microsoft Office 2019 requires Microsoft Windows 10.

NOTE: The installer checks to see whether .NET 4.5.2 is installed. If it is not present, an error message states that .NET 4.5.2 is required and the installer closes.

iManage Work Desktop for Windows compatibility with Adobe applications

The following table lists the versions of Adobe Acrobat Reader and Adobe Acrobat compatible with the 10.x versions of **iManage Work Desktop for Windows**.

Adobe application	Version	Work Desktop for Windows
Adobe Acrobat Reader	DC (64-bit)	10.8 and later ^{1,2,3}
	DC (32-bit)	10.0 - 10.8 and later ²
